PROFESSIONAL SUMMARY

MBA in Business Analytics with 5.4 years of experience across backend, documentation, customer operations, Salesforce management Team leadership, SLA/KPI management, process improvement, and CRM operations. Skilled in developing standard operating procedures, coaching and mentoring team members, managing staffing coverage during peak periods, and using Salesforce, Tableau, Power BI and Excel to turn operational data into reporting that drives decisions. Lean Six Sigma Green Belt and Agile Methodology certified with a track record of restoring SLA compliance and improving service quality through structured process fixes.

PROFESSIONAL EXPERIENCE

Global Admission Executive | Team Handling | Study Group India Pvt. Ltd. **Mar 2024 – Jul 2026**

- Led and coordinated day-to-day backend operations, ensuring timely completion of cases, documentation, and process-related activities within defined SLAs/TATs.
- Resolving bottlenecks across a 40–50 case daily admissions pipeline, developed and rolled out standardized operating procedures for intake and escalation handling.
- To close a leadership visibility gap, built Power BI and Excel dashboards tracking case volume, turnaround time (TAT) and SLA/KPI trends, enabling faster, data-driven process and staffing decisions.
- Owning Salesforce CRM data integrity for the admissions vertical, implemented structured data-entry and GDPR compliant handling standards, eliminating recurring compliance and reporting-accuracy issues.
- Coordinating process changes with Admissions, Finance and Academic teams, streamlined cross-functional handoffs, reducing turnaround delays during student onboarding

Business Development Associate | Leverage Edu **May 2023 – Dec 2023**

- Reviewing student requirement and onboarding data surfaced gaps in the admissions conversion funnel; redesigned the workflow, improving turnaround time and service delivery for applicants.
- Partnered with internal teams to close service-delivery gaps identified through requirement analysis, improving lead-to-conversion tracking accuracy in CRM records.
- Maintained accurate CRM records, case updates, trackers, MIS reports, and operational documentation.

Team Lead – Customer Support | Blue Dart **Feb 2021 – May 2023**

- Supervising and mentoring a customer support team of 16, coached members on escalation handling and service standards through regular performance reviews, sustaining SLA compliance across the team's resolution queue.
- Analyzing operational KPIs and support metrics through a structured reporting cycle, identified recurring service gaps and led corrective process changes that improved team efficiency by 35%.
- Reviewed customer/case documentation for accuracy, completeness, and adherence to defined process and compliance requirements. Coordinated with internal stakeholders and relevant teams to resolve complex cases, close escalations, and ensure smooth end-to-end case movement.
- Owned data quality and SLA compliance standards across customer resolutions, including periodic quality reviews, reducing escalation backlog by 12% and improving customer satisfaction outcomes.
- Prepared and presented operational reports for management covering performance metrics, resolution trends and workload data to support planning decisions.
