Ayusman Singhal

Full-Stack Developer | 3 Apps Published on the Microsoft Store

+91-62050-36608 | ayusmansinghal@gmail.com | LinkedIn | Portfolio | GitHub | Delhi / Bangalore, India

SUMMARY

Computer Science graduate (2026) who ships production software: 3 Windows applications published on the Microsoft Store, including one with 5,000+ downloads, plus full-stack web platforms in live use and a shipped feature in a 39k-star open-source project. Strongest in React, TypeScript, Electron, and Tauri, with working experience in Rust, Python, and Node.js. Seeking an entry-level engineering role with real ownership of product work.

PROJECTS - LIVE & PUBLISHED

My Technician Store Site — Electron - React - TypeScript

Windows troubleshooting utility - diagnostics, cleanup, firewall, process monitoring. 5,000+ downloads on Microsoft Store SEO: 74 to 96

Recoverix Store — Electron - Rust - React - TypeScript

Data recovery app with native Rust engine - Quick Scan, Deep Scan, BitLocker volumes, file previews.

WinGit Store Code — Tauri - React - Rust - SQLite

GUI for Windows Package Manager (winget) - search, install, updates, local caching, favourites.

LearnOnline Live Code — React 19 - Node.js - Supabase - Stripe

Full-stack LMS - courses, quizzes, PDF certificates, three-role dashboard, Stripe payments.

MediaHouse Site — Next.js - TypeScript - Tailwind CSS

Brand website for gaming sponsorship agency - SEO strategy, conversion-focused layout. 110 daily active users SEO: 68 to 92

EXPERIENCE

Freelance & Independent Development — 2024 - Present

Full-Stack Developer

- Designed, built, deployed, and maintain 5 products end-to-end as sole developer
- Published 3 desktop applications through Microsoft Store certification and release cycles
- Handle real user feedback, crash reports, and update releases for apps in production

Bosontech IT Services — Feb 2026 - Mar 2026

Software Development Intern

- Built React components for an internal dashboard; all work merged via team code review
- Fixed cross-browser UI bugs on customer-facing pages and implemented responsive layouts across mobile, tablet, and desktop

Jindal Steel Limited — Nov 2025 - Jan 2026

Technical Operations Intern

- Coordinated data collection and stakeholder reporting for CSR programs in education and healthcare

OPEN SOURCE

openscreen PR #549 39k+ stars

Shipped the "No Webcam" layout preset feature, letting users record without a camera overlay. Implemented across the layout engine, project persistence, settings UI, and i18n; merged into main after multi-reviewer code review.

rembg PR #756 PR #774 23k+ stars

Built a Google Colab quick-start notebook with Gradio and Hugging Face Space integration and rewrote onboarding documentation, cutting setup friction for new users across 2 merged PRs.

SKILLS

Languages:	TypeScript, JavaScript, Python, Java, Rust
Frontend:	React, Next.js, Tailwind CSS, shadcn/ui, SEO
Desktop:	Electron, Tauri, Microsoft Store Publishing
Backend:	Node.js, Flask, REST APIs, PostgreSQL, SQLite
Tools:	Git, Linux, Vercel, AI-assisted development

EDUCATION

B.Tech in Computer Science — 2022 - 2026

University of Engineering & Management, Jaipur

Coursework: Data Structures & Algorithms | Operating Systems | Computer Networks | DBMS | Software Engineering
