PROFESSIONAL SUMMARY

Motivated and detail-oriented B.Tech Computer Science graduate with a strong foundation in software development, programming, database management, and problem-solving. Proficient in Java, Python, C++, SQL, JavaScript, React.js, MySQL, Power BI, Microsoft Excel, and Salesforce. Familiar with software development, data analysis, system testing, and modern development tools through academic projects and practical experience. Quick to learn new technologies, adaptable, and a strong team player with excellent analytical and communication skills. Seeking an entry-level opportunity to contribute, learn, and grow in a dynamic organization.

TECHNICAL SKILLS

Languages: Java, Python, C++, SQL, JavaScript, HTML/CSS
Frameworks & Databases: React.js, MySQL, MongoDB
Tools & Platforms: Salesforce CRM, Power BI, Microsoft Excel, Git, Jira
Methods: Agile, Object-Oriented Programming, Requirement Analysis, User Acceptance Testing (UAT)

PROFESSIONAL EXPERIENCE

Business Analyst Intern Feb 2026 – Jul 2026
AMROAR Technologies Pvt. Ltd. — Noida, Uttar Pradesh, India

- Gathered and validated requirements across 5+ client projects, coordinating with internal teams to translate business needs into actionable technical solutions.
- Worked on Salesforce CRM-based client projects, supporting configuration, data accuracy, and smoother coordination across teams.
- Maintained tracker sheets and communicated with multiple stakeholders across cross-functional teams to keep project status and requirements aligned.
- Performed system testing and requirement validation, identifying gaps early and streamlining the UAT process to support on-time delivery.
- Led client demos and walkthroughs and supported User Acceptance Testing (UAT) to ensure smooth, timely project handoff.

PROJECTS

Power BI Dashboard — Carbon Footprint Analytics

- Built an interactive Power BI dashboard visualizing carbon footprint data across multiple sectors to surface clearer trends.
- Performed end-to-end data cleaning, transformation, and analysis; designed dynamic charts and slicers to improve data storytelling.

PersonaPath — React.js, Node.js, MongoDB, Groq AI (LLaMA 3.3 70B)

- Co-developed a full-stack AI-driven SaaS platform for personality assessment; built a Chart.js analytics dashboard for longitudinal trend visualization.
- Implemented a centralized data/AI service layer processing structured responses across three endpoints; deployed to production on Netlify and Render.

EDUCATION

B.Tech, Computer Science & Engineering — Shivalik College of Engineering 2022 – 2026
Dehradun, Uttarakhand, India

Class XII (PCM) — St. Paul's Public Senior Secondary School 2022
Jodhpur, Rajasthan, India

Class X — St. Paul's Public Senior Secondary School 2020
Jodhpur, Rajasthan, India

CERTIFICATIONS

- Data Analytics and Visualization Job Simulation — Tata (Forage)
- Power BI Certification — Edunet Foundation
- Introduction to Data Science — Infosys Springboard
- Artificial Intelligence Fundamentals — IBM SkillBuild
