RITIK KUMAR GUPTA

Open to Relocate | 9693363670 | ritikkumargupta535@gmail.com | LinkedIn | GitHub

CAREER OBJECTIVE

Detail-oriented B.Tech Computer Science undergraduate with hands-on internship experience in data analysis and reporting using Excel, Google Analytics, and Tableau. Skilled in building MIS-style reports and dashboards, validating and documenting data, and coordinating findings across teams. Comfortable with MS Office tools and quick to pick up new systems, with a genuine interest in IT support and troubleshooting alongside core MIS reporting work.

RELEVANT EXPERIENCE

Data Analyst (Intern) | Edulyt India *Jul 2025 – Aug 2025*

- Analyzed company datasets to prepare data summaries covering cold-call success ratios, customer spending patterns, and repayment behavior — directly comparable to MIS reporting and dashboard work.
- Used Google Analytics, Google Colab, MS Excel, MS BI, Google Charts, and Tableau to collect, validate, and visualize data for stakeholder review.
- Maintained structured records of findings to support accurate, timely reporting to the team.

Data Analyst / MIS Support | RK Prime Distributor *Jan 2026 – Present*

- Data Collection: Gather and consolidate raw operational data from ERP (Busy Software), billing systems, and order files across daily business operations.
- Data Cleaning & Report Creation: Clean, validate, and organize raw billing and order data into structured tables; compile daily and weekly performance summaries for business review.
- Dashboard/Reporting Support: Build tracking sheets and visual summaries in Excel to monitor orders, dealer accounts, and revenue trends.
- Trend Analysis: Track order volumes and customer/dealer patterns over time to flag anomalies, risks, and growth opportunities.
- Handle and document 10–15 daily customer/dealer interactions — calls, order-taking, negotiations, and follow-ups — converting conversations into structured, trackable records.

PROJECTS

Swiggy Sales & Delivery Analytics Dashboard | *Power BI, Power Query, DAX*

- Developed an interactive Power BI dashboard analyzing Swiggy sales, orders, delivery performance, and customer trends to surface key business KPIs.
- Used Power Query, DAX, and data modeling to clean and transform raw data into structured, analysis-ready datasets.
- Built visualizations tracking revenue, order volume, average order value, and category/city-wise performance to support data-driven business decisions.
- GitHub: https://tinyurl.com/swiging

Sales Data Analysis – Vrinda Store | *Microsoft Excel*

- Cleaned and restructured raw retail sales data — handling inconsistencies, missing values, and duplicates — into a proper format for analysis.
- Used VLOOKUP, XLOOKUP, and INDEX-MATCH to retrieve, match, and combine data across sheets.
- Built charts and graphs to visualize sales performance and customer behavior, surfacing trends and key business insights.
- GitHub: Analysis-of-sales-Of-Vrinda-Store

Classify-X | *OpenCV, PyTorch, NumPy, Pillow*

- Python-based image classification tool with a live demo — classifyx.streamlit.app.

SKILLS

- **Data & Reporting:** MS Excel (VLOOKUP, XLOOKUP, INDEX-MATCH, data cleaning, charts & graphs), Power BI (Power Query, DAX), Google Analytics, Google Charts, Tableau, MS BI, CSV/Excel data handling, data validation & documentation
- **MS Office:** Excel, Word, PowerPoint — comfortable working across the suite for reporting and documentation
- **Technical Foundation:** MySQL, DBMS, basic networking concepts, Git/GitHub, VS Code — supports first-level IT/technical troubleshooting
- **Core:** Strong analytical and problem-solving skills, clear written communication, fast learner on new tools and systems

EDUCATION

B.Tech, CSE (Minor: Data Analytics) | Quantum University, Roorkee, Uttarakhand *2023 – 2027*

Higher Secondary (CBSE) | Kiran Public School, Giridih, Jharkhand *2021 – 2023*

Secondary Schooling (CBSE) | Saraswati Sishu Vidya Mandir, Giridih, Jharkhand *Jun 2021*

CERTIFICATIONS

- Database Foundations — Oracle Academy (Dec 2024)
- Operating Systems — Scaler (Nov 2025)
- UI Automation with Modern Design in Studio — UiPath, Diploma of Completion (2025)

ACHIEVEMENTS

- Ranked within the top 10% of performing students at Quantum University, Roorkee — consistent academic performance alongside active internship and work commitments.
- Recommended by the Head of Department (Computer Science Engineering), Quantum University, Roorkee — recognized for technical aptitude and reliability.
- 10+ months of combined hands-on experience in data analysis, reporting, and MIS documentation across a formal internship and ongoing operations work.
