

VISHAL SHARMA

QUALITY ANALYST • QA FRESHER

EDUCATION

Bachelor of Computer Applications
Shri Guru Ram Rai University
2020 – 2023
CGPA: 7.62

CORE SKILLS

- Manual Testing Fundamentals
- Test Case Design & Execution
- Functional Testing
- Smoke / Sanity / Regression
- Bug Reporting & Tracking
- SQL & Database Basics
- HTML, CSS, JavaScript
- Data Validation & Accuracy
- MS Excel (Test Logs, Trackers)
- Problem Solving

LANGUAGES

- English — Professional
- Hindi — Native

AVAILABILITY

Immediate joiner, open to relocation for the right opportunity.

Dehradun, Uttarakhand

BCA graduate with hands-on experience in data verification and quality checks through GIS work, combined with a working foundation in web development using HTML, CSS and JavaScript. Detail-oriented and analytical, with academic exposure to databases and software engineering. Looking to begin a career in Quality Assurance, applying a careful, methodical approach to testing, validation and problem solving to help Evon Technologies ship reliable software.

QUALITY ANALYST | QA FRESHER

EXPERIENCE

GIS Engineer — RMSI Pvt. Ltd., Dehradun | *Sep 2025 – Jan 2026*

- Worked on a Place Search project involving satellite-image-based location identification, verifying results against source imagery for correctness.
- Performed data verification and quality checks to maintain accuracy and consistency of location information across large datasets.
- Used DACOTA software for mapping and data processing while strictly following project quality standards and QC checklists.
- Reviewed daily outputs for accuracy, logged discrepancies, and met daily productivity and quality targets — habits of precision that translate directly to structured software testing.

PROJECTS

Quiz Application

- Built a browser-based quiz application using HTML, CSS and JavaScript with question handling and result logic.
- Manually tested each question flow and scoring path for logic errors and edge cases before final submission.

Habit Tracker

- Created a habit-tracking interface with JavaScript-based interactions and user input handling, validated against invalid and boundary entries.

Random Quote Generator

- Developed a JavaScript project that dynamically displays random quotes and updates the UI on each click.

Calculator & Digital Clock

- Built interactive browser applications using JavaScript, DOM manipulation and event handling.
- Cross-checked calculator outputs against expected results for a range of operations to verify functional correctness.

TECHNICAL KNOWLEDGE

Testing: Manual testing concepts, test scenarios, test case design, functional testing, smoke testing, sanity testing, regression testing, bug identification and reporting.

Programming / Web: HTML, CSS, JavaScript.

Database: SQL fundamentals, database concepts (queries, joins, constraints).

Tools: DACOTA, MS Excel, MS Word.

EDUCATION & COURSEWORK

BCA — Shri Guru Ram Rai University, Dehradun | CGPA 7.62

Relevant coursework: Data Structures, Web Development, Databases, Software Engineering.

STRENGTHS

Attention to Detail • Analytical Thinking • Data Accuracy • Problem Solving • Communication • Quick Learning • Teamwork
