PALASH VARSHNEY

Senior Full Stack Web Developer

+918279901643 | palashoftenrocks@gmail.com | https://palashvarshney.netlify.app

SUMMARY

Senior Software Developer with expertise in full-stack development, React, and TypeScript. Passionate about building high-performance, type-safe web applications and implementing scalable infrastructure to drive user efficiency and data integrity. A detail-oriented problem solver with a strong foundation in modern DevOps practices, including Docker, Kubernetes, and CI/CD pipelines. Committed to leveraging analytical skills and a background in data science to engineer robust, production-grade solutions.

TECHNICAL SKILLS

Languages & Frameworks:
NestJS, Next.js, TypeScript, ReactQuill, MERN Stack, Angular, .NET, Flask, Svelte, Go (Golang), Vue.js.

Databases:
PostgreSQL, MySQL, MariaDB, SQLite, Drizzle ORM, Supabase, Neon, Fivetran, Cassandra, Neo4j.

DevOps, Cloud & Infrastructure:
Docker, Kubernetes, Azure, Jenkins, CI/CD, Kafka, Terraform, Google Cloud Build, Splunk, OPA.

Tools, Testing & Integrations:
APIs, Postman, Redux, Zoho, cURL, Selenium, SQLmap, Burp Suite, SoapUI, Allure TestOps.

PROJECTS

MyPocketMaths (2025–Present)

- Engineered a full-stack mathematical computing platform featuring 11+ toolkits and advanced calculators.
- Architected a production-grade frontend using React and TypeScript for type-safe state management and responsive UI/UX.

TextToFi (2025–Present)

- Developed a professional-tier document processing web application.
- Implemented intelligent syntax formatting, multi-destination exporting, and an integrated management system for high-volume document handling.

EDUCATION

Lovely Professional University
MCA - Data Science
2024 - 2026 | CGPA - 8.11

Aligarh Muslim University
Computer Science
2021 - 2024 | Grade - A+

AWARDS

Pedagogical Leadership (2025) : Recognized for instructional versatility and delivering comprehensive curricula across diverse domains.
