# GOURAV DAS

Kolkata, West Bengal | gouravdas350@gmail.com | +91 89104 18563 | Portfolio | GitHub | LinkedIn

## PROFILE

Computer Science graduate (B.Tech, MAKAUT, 2026) with hands-on experience across full-stack web development (MERN, Next.js) and AI/ML (retrieval-augmented generation, supervised ML classifiers). Built and deployed production-style applications including a full-stack e-commerce platform, an enterprise SaaS analytics platform, and a document Q&A system using FastAPI, LangChain, and Google Gemini. Currently deepening cloud fundamentals through AWS re/Start. Looking for an entry-level opportunity in software development, AI/ML, or a related technical role.

## TECHNICAL SKILLS

- Full-Stack: MERN Stack (MongoDB, Express.js, React.js, Node.js), Next.js, REST API Architecture, JWT Authentication, RBAC
- AI/ML & GenAI: LangChain, Retrieval-Augmented Generation (RAG), Google Gemini API, FastAPI, scikit-learn, Prompt/Context Engineering
- Core CS: Data Structures & Algorithms, OOP, DBMS — actively practicing via NeetCode 150 (36/150 solved)
- Languages: JavaScript (ES6+), Python, Java
- Frontend: React.js, Next.js, Vite, HTML5, CSS3, Tailwind CSS
- Backend & Databases: Node.js, Express.js, Django, MongoDB, PostgreSQL, MySQL, Oracle SQL
- Tools & Cloud: Git, GitHub, Linux, AWS (EC2, VPC, S3) — in progress via AWS re/Start
- Also exposed to: Big Data foundations (Hadoop, HDFS, Spark)

## PROJECTS

**E-Commerce Web Application — Full-Stack (MERN)** *2026*

Live Demo →

- Built a full-stack MERN platform (40+ REST endpoints, 11 route modules, 8 MongoDB collections) with JWT auth, OTP verification, password reset, and RBAC across admin/seller/buyer roles.
- Integrated Stripe and Razorpay payments, an admin dashboard, and catalog features; hardened the API with Helmet, CORS, rate limiting, bcrypt, and input validation.

**FinPulse SaaS — Next.js, React 19, Neon, Drizzle ORM** *2026*

Live Demo →

- Built an enterprise multi-tenant financial analytics and real-time collaboration platform using Next.js 16 App Router, React 19 Server Components/Actions, Neon serverless PostgreSQL + Drizzle ORM, and Clerk auth.

**RAG Document Assistant — FastAPI, LangChain, Gemini** *2026*

- Built a retrieval-augmented generation (RAG) system with a modular FastAPI backend for document-grounded Q&A over uploaded PDFs, using LangChain to orchestrate retrieval with Google Gemini.

**Fake News Detection — IIT Patna Candidate-Shortlisting Assignment** *Jul 2026*

- Built a TF-IDF + Logistic Regression classifier; achieved 98.57% accuracy and 0.999 AUC-ROC on ~9,000 unseen news articles.

**Heart Disease Prediction System — B.Tech Final Year Project** *2024 – 2025*

- Built and evaluated 5 classification models (Logistic Regression, KNN, SVM, Decision Tree, Random Forest); up to 82% accuracy.

**Personal Portfolio — React, Vite, Tailwind CSS** *2025 – 2026*

- Fully responsive portfolio site; achieved a perfect 100/100 Lighthouse score across Performance, Accessibility, Best Practices, and SEO.

*Additional projects (Movie Recommendation System, Hadoop File System Management, Joke Generator app) on the portfolio site above.*

## TRAINING & INTERNSHIPS

**AWS re/Start Cloud Trainee — Tata Strive** *Jun 2026 – Present*

- Provisioning and configuring core AWS services (VPC, EC2, S3), Linux administration, networking, and IAM/security fundamentals through a structured, project-based curriculum.

**Full Stack Web Development Trainee — Teknowgrade Pvt. Ltd (Remote)** *Feb 2026 – Apr 2026*

- Built dynamic web applications using Django — authentication, backend logic, REST APIs, and database integration; hands-on CRUD operations.

**Machine Learning Using Python — Ardent Computech Pvt. Ltd** *Aug 2023 – Sep 2023*

- Covered supervised/unsupervised ML algorithms, data preprocessing, feature selection, and model evaluation; built a recommendation system as capstone.

**Blockchain & Big Data Analytics Bootcamp — NIELIT Kolkata (Govt. of India)** *Feb 2026*

- 90-hour bootcamp covering blockchain fundamentals and Big Data technologies (Hadoop, HDFS, Spark, Hive); applied HDFS for storage and file operations on Linux.

## EDUCATION

**B.Tech, Computer Science & Engineering — Future Institute of Engineering and Management (MAKAUT)** *2026*

- CGPA: 7.56

Higher Secondary (Science), Kendriya Vidyalaya Fort William, Kolkata (CBSE) — 2021 | 76.00% • Secondary — 2018 | 61.20%

## CERTIFICATIONS

- Advanced Software Engineering Job Simulation — Walmart Global Tech (Forage) • Front-End Software Engineering Job Simulation — Skyscanner (Forage) • Full Stack Web Development Certification — Teknowgrade
- Machine Learning Using Python — Ardent Computech • Oracle SQL Certification Course — Udemy (16.5 hrs) • Blockchain & Big Data Bootcamp — NIELIT Kolkata • DevOps Foundations — LinkedIn Learning
