ANSHU

Noida, Uttar Pradesh | +91 9625070981 | anshusceds@gmail.com | github.com/Anshukundu

SUMMARY

Recent B.Tech graduate with a strong foundation in Python, Data Analysis, and Business Intelligence. Skilled in NumPy, Pandas, Matplotlib, Seaborn, SciPy, SQL, Excel, and Power BI for data cleaning, analysis, visualization, and reporting. Quick learner with strong attention to detail, eager to apply analytical and problem-solving skills to real-world, data-driven business challenges.

EDUCATION

B.Tech, Computer Science (Data Science) — KCC Institute of Technology & Management 2022 – 2026

CGPA: 7.53

Alpine Public School — Class XII: 84% (2022)
Alpine Public School — Class X: 85% (2020)

TRAINING & EXPERIENCE

Data Engineer Training — HCL Technologies Dec 2024 – Mar 2025

- Developed and maintained modules for the Edu Tracks College Management System.
- Performed ETL processes, data validation, and database operations using Python and SQL.
- Tested application functionality, verified data accuracy, and assisted in debugging across modules.

Data Audit Intern — Skill Express (Swachh Survekshan 2025–26 Program) 2026

- Conducted data verification, validation, and quality checks on assessment datasets, identifying inconsistencies and ensuring compliance with project requirements.
- Performed detailed record reviews to maintain data accuracy, documented findings, and collaborated with the team to improve data quality.

TECHNICAL SKILLS

Programming Languages: Python, Java, C, C++

Databases: SQL, MySQL, SQLite, MongoDB

Data Analysis & Visualization: Pandas, NumPy, Matplotlib, Seaborn, SciPy, Power BI, Power Query, Excel

Web Technologies: HTML, CSS

Tools & Platforms: Git, GitHub, VS Code, Jupyter Notebook, Anaconda Navigator

PROJECTS

Edu Tracks — College Management System | *Python, SQL*

- Developed a college management system using Python and SQL with modules for student records, attendance, course registration, and result management.
- Managed and retrieved student data using SQL queries and database operations.

Global Malnutrition Trends Analysis | *Power BI*

- Developed an interactive Power BI dashboard analyzing global malnutrition trends, with KPIs, charts, and filters to surface regional variations.
- Prepared a data-driven report to present key insights and findings.

CERTIFICATIONS

- Python Programming, Certificate of Completion — INCAPP, The CODING Institute (Sept – Nov 2024)
- Data Engineering Internship — HCL Technologies (2025)
- Swachh Survekshan 2025–2026 Data Audit Internship — Skill Express (2026)
