Aman Kumar Verma

Noida, UttarPradesh-201309, India amansinghpatel002@gmail.com 9315130844
https://www.linkedin.com/in/aman-kumar-verma-bb175035a

OBJECTIVE

As a B.Tech student proficient in Python, SQL, Excel, Pandas, NumPy, and Matplotlib, I bring a solid foundation in data analysis, cleaning, and visualization. With a passion for extracting actionable insights from complex datasets, I am eager to contribute to data-driven decision-making and continuously grow in the evolving field of Data Analytics.

Technologies

Languages: Python, Pandas, SQL, PowerBI, MsExcel.
Developer Tools: Github, JupyterNotebook, VScode, Figma to HTML.
Soft Skills: Presentation Skills, Time Management, Leadership, Strong communication and interpersonal skills

Education

Bachelor of Technology, IInd Div | 2025
ABESIT, Ghaziabad *in Computer Science and Engineering*
12th Private School, Ist Div | 2020
10th LHK Study center, Ist Div | 2017

Experience

Cogito Tech, Noida Sector-59 | *3 Months*

- Annotated and labeled image datasets by accurately identifying and drawing bounding boxes around target objects to ensure precise visual matching.
- Performed image-to-image comparison tasks to validate similarities and improve dataset quality for computer vision model training.
- Maintained high accuracy and consistency while handling large volumes of image data under defined quality guidelines and timelines.

Projects

Focal Matching – Computer Vision / Image Processing

- Designed and implemented a focal-invariant image matching pipeline using key point detection (SIFT/ORB), descriptor extraction, and RANSAC-based filtering.
- Conducted experiments to compare match accuracy across multiple focal lengths and image conditions.
- Optimized processing speed and accuracy using Python, OpenCV, and NumPy.

Customer Churn Analysis

- Identify churn patterns across customer segments. Created KPI cards, heatmaps, and drill-downs for churn rate and retention trends.
- Analyzedcustomerretentionmetricsacrossdemographicsandservicetiers.
- Usedslicersandfiltersforinteractiveexplorationbygeographyandsubscriptiontype.
- Insights helped reduce churn rate by 12 Percentage via targeted customer retention efforts.
- Tools Used: *Power BI, Excel, DAX*

Retail Store Database Management & Reporting

- Retail Designed and normalized a relational database for a fictional retail company, reducing data redundancy by 30
- Automated weekly sales and inventory reports using SQL views and integrated results into Tableau dash-boards.
- Tools Used: *MySQL, SQL Server, Tableau*.

Certificate and Achievements

Pro Dev 1.0 : Frontend Internship Certificate.
