Siddhant Saxena

+91 8630093573 | Siddhantsaxena2881@gmail.com | https://www.linkedin.com/in/siddhant-saxena-723846212/ | github.com/siddhant2132002

Technical Skills

Languages: C / C++, Python, Java, Html, CSS
Frameworks: flask, tkinter, pygames
Developer Tools: visual studio code, jupyter, Google collab, intelliJ
Database: MySQL, PostgreSQL
Data Science & ML Libraries: scikit learn, numpy, pandas, sci-py, Matplotlib
Other Skills: Team leading, software Testing, content creation, Graphic design
Soft Skills: Team Management

Extracurricular Activities

Publication Contribution Ongoing

IGI Global

- Chapter Author – *Advancing Cybersecurity in Smart Factories Through Autonomous Robotic Defenses* (Upcoming Book).
- Authored a chapter titled *"Addressing Cybersecurity Risks in Robotics and Autonomous Machines,"* accepted for publication by IGI Global.
- Contributed original research on cybersecurity challenges and defense mechanisms in autonomous robotic systems.
- Engaged in a peer-reviewed editorial process to refine and enhance the manuscript.

Student Volunteering – Programming Mentor February 2023

MJPRU

- Assisted students in solving programming doubts and troubleshooting errors.
- Conducted hands-on practical sessions to reinforce coding concepts.
- Simplified complex programming topics using real-world examples.
- Provided guidance on best coding practices and problem-solving techniques.

Education

Mahatma Jyotiba Phule Rohilkhand University Bareilly, U.P.
B.Tech, Computer Science and Information Technology *2022 – Present*

Govt.polytechnic baheri Bareilly, U.P.
BTEUP Diploma , computer science engineering *2019 – 2022*

Projects

Library Management System | *Java, MySQL*

- Developed a system to streamline book issuance, returns, and inventory tracking.
- Implemented authentication, book search, and overdue fine calculation.
- Used Java for backend logic and MySQL for database management, ensuring data integrity.
- Optimized database queries, improving performance by 20%.

Study and Analysis of Air Quality Computational Models | *Python, Machine Learning, Data Analysis*

- Analyzed computational models for air quality prediction as part of a major project.
- Reviewed research papers and identified gaps for improved forecasting accuracy.
- Implemented ML models to predict pollution levels based on environmental factors.
- Utilized Pandas, NumPy, Scikit-learn, and Matplotlib for data processing and visualization.

JARVIS Desktop Assistance | *Python, Speech Recognition, NLP*

- Built an AI-powered virtual assistant for automating desktop tasks.
- Implemented voice command recognition, task automation, and system control.
- Used Python with Speech Recognition, NLP, and TTS for human-computer interaction.
- Integrated APIs for real-time weather, news, and reminders.

Certificates

Introduction to python programming
sololearn

Master python and generative ai for advance analytics
udemy

.Introduction to machine learning
NPTEL

Data science with cloud
udemy

c programming
udemy
