CAREER OBJECTIVE

"Motivated Computer Science graduate seeking an entry-level Software Developer position to apply proficiency in Python, Java, and software development lifecycles to build innovative, efficient solutions."

WORK EXPERIENCE

CRD Aug 2025 - Nov 2025
Icon India, Greater Noida

EDUCATION

B.Tech, Computer Science & Engineering 2022 - 2026
Mangalmay Institute Of Engineering & Technology (MIET)

Percentage: 78.00%

Senior Secondary (XII), CBSE 2022
Science

A.Y.T Sr. Secondary School,Deoria

Percentage: 75.00%

Secondary (X), CBSE 2020
R.B.T. Vidyalaya, Barhaj

Percentage: 76.00%

PROJECTS

Emotion Recognition on Video Call
Dec 2025 - May 2026

Me and my team work for project: sync:Emotion Recognition on Video Call
We made this project using OpenCV, CNN Model and FER2013 dataset
Here we used used python as programming language for visualization, integrate numpy,Matplotlib etc.
We used Machine learning technologies like Recognition of human facial expressions.

SKILLS

- Data Analytics
- Artificial intelligence
- Frontend development
- Data Science
- Machine Learning
- Python
- DevOps

EXTRA CURRICULAR ACTIVITIES

- I have working in India Expo Mart , Bharatmandapan,Pragati maidan for tech and management
  I handle lots of private and government event
  I have 4 year of experience in event management.

ADDITIONAL DETAILS

- I have completed my academic of Bechlor's Engineering and technology first division without any backlog. Recently I completed cloud computing certification course from Duke University. I am interested in teaching upto B-tech level students
