PROFILE

I am a B.Tech CSE graduate with a strong foundation in technical skills, communication, problem-solving, and teamwork. My experience in organizing hackathons and college events has helped me develop skills in coordination, task management, and working effectively with different people. I am adaptable, organized, and eager to learn new skills and take on new responsibilities. I aim to contribute effectively to an organization while continuously developing my professional and technical abilities.

PROJECTS & EXPERIENCE

Twitter Sentiment Analysis using Fine Tuned LSTM Model
Developed a Twitter sentiment analysis project using a fine-tuned LSTM model to classify tweets as positive, negative, or neutral. Compared several models, including Naive Bayes, Logistic Regression, and Support Vector Machines (SVM), achieving 83% accuracy with the LSTM model.

AceHack (College Hackathon Organizer)
Led the organization of a college-level hackathon with 200+ participants. Managed end-to-end planning including registrations, scheduling, logistics, and coordination with sponsors and faculty. Developed strong skills in event management, resource allocation, and problem-solving under deadlines.

Annual Sports Fest (Event Coordinator)
Coordinated a multi-day sports fest with 300+ participants, managing event schedules, equipment inventory, and volunteer teams to ensure smooth and engaging execution.
