SUMMARY

Frontend developer with 6 months of internship experience building responsive, component-driven React.js interfaces and integrating REST APIs into live web applications. MCA graduate who has shipped a full-stack MERN product end to end — React UI, Express API, MongoDB Atlas and cloud deployment — and is ready to own frontend features on a product team.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), HTML5, CSS3, SQL
Frontend	React.js, Tailwind CSS, Component-Based Architecture, Responsive & Mobile-First Design
Backend & Database	Node.js, Express.js, MongoDB Atlas, REST API Integration, CRUD Operations
Tools & Platforms	Git, GitHub, Postman, Netlify, Render, VS Code
Foundations	Data Structures & Algorithms, OOP, System Design Fundamentals

EXPERIENCE

Frontend Developer Intern — **PetCartel.com** — 6 months

- Built responsive, reusable UI components in React.js, JavaScript, HTML5 and CSS3 for the company's web app.
- Integrated REST APIs to render dynamic data, handling loading and error states instead of blank screens.
- Shipped new frontend features with senior developers and fixed cross-browser UI defects found in testing.
- Worked in a Git and GitHub branching workflow, contributing to code reviews across the release cycle.

Junior Engineer – GIS — **RMSI** — 3 months

- Processed and quality-checked geospatial datasets, validating positional and attribute accuracy.
- Maintained and updated GIS records to match client requirements and internal quality standards.
- Coordinated with a mapping team to deliver assigned tasks within project timelines.

PROJECTS

FraudFree — **Fraud Company Reporting Platform**

React.js · Express.js · Node.js · MongoDB Atlas · Netlify · Render

- Built a full-stack MERN app to report and look up fraudulent companies, with full CRUD on MongoDB Atlas.
- Integrated AI-powered report assistance and validated every REST endpoint with Postman before release.
- Deployed the React frontend on Netlify and the Express backend on Render via environment configuration.

Personal Portfolio Website

React.js · Tailwind CSS · EmailJS

- Designed and built a fully responsive, mobile-first portfolio site showcasing projects and skills.
- Integrated EmailJS so the contact form delivers enquiries to email with no backend server.

Dice Game *React.js · Tailwind CSS*

- Built an interactive dice game using React state and conditional rendering for turns and score tracking.

EDUCATION

Master of Computer Applications (MCA) — SGRR University, Dehradun — 2023 – 2025 · **CGPA 7.27 / 10**

Bachelor of Computer Applications (BCA) — SGRR University, Dehradun — 2020 – 2023 · **CGPA 7.72 / 10**

CERTIFICATIONS & CONTINUOUS LEARNING

SQL (Basic) — HackerRank — Verified Certificate

Responsive Web Design — freeCodeCamp — Certified

Data Structures & Algorithms — LeetCode — Ongoing Practice
